

ServiceNow Standard Laptop Procurement Automation

Module 4 of 8 — Create & Configure the Catalog Task Action

Create & Configure the Catalog Task Action

Step 1	Under Actions, click Add an action.
Step 2	Search for Create Catalog Task and select it.
Step 3	Confirm the action is Create Catalog Task.
Step 4	Drag and drop the Requested Item Record into the Request item field.
Step 5	The table should automatically populate as Catalog Task.
Step 6	Set Short description to: Laptop need to Configured.
Step 7	Click Add field value.
Step 8	Select Description and enter: Laptop need to Configured.
Step 9	Select Assignment group and set it to Hardware.
Step 10	Select Approval and set it to Approved.
Step 11	Leave the remaining fields at their default values.
Step 12	Click Done.
Expected Result	The flow contains a configured Create Catalog Task action that creates the required task and assigns it to the Hardware group.
